

Crypto currency works in a similar way as exchanging GBP to EUR but in his case you do it for cryptocurrency. So essentially you exchange your GBP to bitcoin or any other coin and pay with that.

Paying with Monero (XMR):

Monero is the most privacy oriented and untraceable crypto currency currently available which transaction fees (the fee you pay to transfer funds from one wallet to another) as less as £0.01. We highly suggest considering that crypto first.

To set up Monero wallet you would need to download Monero GUI

<https://www.getmonero.org/downloads/#gui>.

We suggest following this short video to setup the wallet correctly and please **make sure you back up your mnemonic phrase** because if you loose access to the wallet for any reason you won't be able to restore the access to it without that phrase.

Setting up Monero GUI wallet:

The best way to purchase Monero way would be to use <https://localmonero.co/buy-monero-using-national-bank-with-gbp-in-united-kingdom> . The main benefit purchasing Monero there is that it is P2P platform hence no KYC or any other form of verification is needed. Monero can also be purchased via PayPal, Revolut etc. simply adjust the filter on the website.

PLEASE BE AWARE: since it's P2P platform – please pay attention to sellers rating to avoid being scammed

ALTERNATIVE:

The instruction on how to set-up the Coinomi (multi crypto currency hot wallet) is below:

So, the easiest way to get the wallet where you would keep your bitcoin would be to install Coinomi wallet - it's very privacy-oriented wallet and you can do it for either on PC:

<https://www.coinomi.com/en/downloads/>

or your mobile phone from the Application store.

After you install it - go into app and it will offer you to create the wallet. There you should choose the coin you would like to pay with and it will be added to your account. After that, Coinomi has built in service called Cyrpto (Simplex) from which using your credit/debit card you can purchase crypto currency straight to your wallet. Or from this link - but please make sure you have added exact wallet address of the selected crypto currency as in coinomi because if you have purchased it and used wrong address you wont be able to recover it: <https://www.coinomi.com/buy/simplex/>

Alternatively, you could use this 3 minutes video which will show you how to set up your wallet properly:

https://www.youtube.com/watch?v=ucZU_wdDviw

How to buy crypto currency to coinomi wallet (bitcoin example) :

How to send crypto currency from coinomi wallet (bitcoin example):

<https://www.youtube.com/watch?v=K81KQCizFs>

As soon as you get crypto currency to your wallet - we suggest you to go to our web site in the section - How to pay with crypto currency - and there is an instruction on what to do at the checkout page :)

We understand it might sound like a lot - but after you do it once, it will be the same all the time
